Drawings

The drawings received on 2-26-04 are acceptable.

Allowable Subject Matter

Claims 1- 6 are allowed.

The following is an examiner's statement of reasons for allowance: patentability resides, at least in part, in the convex portion protruding from one of the first surface of the inner housing toward the second surface in the first direction and the second surface of the outer housing toward the first surface in a direction opposed to the first direction, the convex portion abuts against the other of the first surface of the inner housing and the inner second surface of the outer housing so that a repulsive force is generated between the inner housing and the outer housing, when the fixing member fixes the inner housing and the outer housing to each other, in combination with the other limitations of the base claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Pauza et al. 3,399,374 and Detter et al. 4,634,204.
